BULGARIA TO DISPLAY NEW MACHINERY AT LEIPZIG FAIR

WILL SHOW ELECTRICAL EQUIPMENT, RADIOS -- Sofia, Izgrev, 2 Mar 51

At this year's International Fair at Leipzig, in addition to the products of the textile, leather, and rubber industry, Bulgaria will display for the first time machinery produced recently in Bulgaria, including lathes, shaping machines, milling machines, electrical appliances and equipment, telephones, radios and radio equipment, automobile parts, instruments, and other industrial goods.

Two thirds of the space provided for Bulgarian exhibits will be taken up by agricultural products, such as canned and dehydrated fruit and vegetables, jellies, preserves, and other fresh and processed produce. Special booths will display various types of tobacco and tobacco products, as well as products made from Bulgarian roses.

FIRST FREIGHT CAR READY -- Sofia, Izgrev, 3 Mar 51

The workers of the Cherveno Zname Plant in Burgas celebrated the completion of the first freight car manufactured in Bulgaria, which was put into operation on 2 March 1951. The new car, designated MS-84,700, was started on 3 February 1951 and completed 20 February, considerably ahead of schedule.
